Description

This Hylas 52 Sports Fisher, built in the Queen Long Marine yard in Taiwan in 1991 under strict survey is possibly the best sport fisher of her age on the brokerage market today. With a hull built from solid fibreglass she feels strong and stable from the moment you step aboard. She has had only two owners from new and has always been meticulously maintained to the strictest standards with absolutely no expenses spared.

She was designed and built by her first owner specifically for offshore fishing in comfort with every extra and refinement you will ever need and is 100% guaranteed accident free. This boat was upgraded with the new CAT 3196 engines and Onan 16 Kva generator in 2002 and went through a major refurbishment in late 2012 with over 2 million baht (60k US) spent on new exterior and interior finishing, including a brand new water maker and auto pilot.

This boat is Langkawi registered and in lovely condition and truly has to be seen to be appreciated and is available for sale at a very reasonable price. If you are a keen saltwater fisherman looking for the best then look no further. The instruments on the flybridge do need to be replaced but this is reflected in the very attractive asking price.
