Description

This Custom 67 foot trawler catamaran is a mini ship. Built for long distance cruising in comfort she has a huge interior volume and lots of outdoor entertaining areas. At the aft end of the main deck there is a huge outdoor lounge with plenty of cover. The large open plan saloon and galley in the centre of the boat is of course fully air conditioned with steps to the lower decks in the two hulls and a guest head with shower and sink.

Steps up lead to the raised pilot house bridge deck and from there to the large upper deck lounge area with seating, sunbeds and a hot tub and BBQ. At the aft end of the upper deck is a covered area with solar panels above and two dinghies and a kayak serviced by a deck crane. Up one more level takes you to the flybridge with plenty of comfortable seating for the sofas and loungers. The accommodation is laid out with twin master cabins to either side of the forward main deck with access from the bridge deck. Guest accommodation is forward in the two lower decks with a twin to port and a triple to starboard.

On the starboard side aft of the workshop is a single crew berth and on the port side aft is a crew cabin with a single and small double above. Powered by twin John Deere 6068 265 horsepower engines she has a maximum speed of 11 knots and cruises at 7 knots for up to 1,000 miles. On board power comes from a Cummins Onan 13kw generator. There is also an Aquamatic 700 watermaker that can produce up to 110 litres per hour.

Broker comment;

If you are looking for a large stable platform to take you exploring this is the boat for you.
