

The background of the entire image is a complex, abstract pattern of thin, glowing red lines. These lines are drawn in a sketchy, expressive manner, creating a sense of movement and depth. Some lines are straight and sharp, while others are curved and fluid. They intersect and overlap to form various geometric shapes, including rectangles, triangles, and irregular polygons. The overall effect is reminiscent of a technical drawing or a wireframe model, but with a more organic, hand-drawn feel. The lines are a vibrant red color, standing out sharply against the solid black background.

THE CALL OF THE WILD

BASED ON A WIDER STORY

“We all have a wild side”

**Marcello Maggi, Chairman of W-Fin
Sarl, Wider's sole shareholder**

“WiLder is the wild side of Wider. Designed to excite. Provocative at times. A world without rules, dogmas or conventions. It is the urge to create. It is fun for fun's sake. A haven of freedom that always gives you a secret escape route, or the chance to show the world your wildest side.”

WiLder è il lato selvaggio di Wider. Nato per emozionare, a volte provocante, un mondo privo di regole, dogmi o convenzioni. È l'impulso a creare, è divertimento fine a sé stesso. Un rifugio di libertà in cui trovare sempre una via d'uscita segreta, o la possibilità di presentarsi al mondo con il proprio io più selvaggio.

WiLder ist die wilde Seite von Wider. Entstanden, um in einer Welt ohne Regeln, Dogmen oder Konventionen zu begeistern, manchmal auf provokative Weise. Es ist der Drang zu schaffen, es ist Spaß um seiner selbst willen. Ein Refugium der Freiheit, in dem man immer einen geheimen Ausweg finden kann, oder die Möglichkeit, sich der Welt mit seinem wildesten Ich zu präsentieren.

WiLder es el lado salvaje de Wider. Creado para emocionar, a veces provocador, un mundo sin reglas, dogmas ni convenciones. Es el impulso de crear, es diversión en su máxima expresión. Un refugio de libertad en el que encontrar siempre una puerta secreta, o la posibilidad de presentarte al mundo con tu yo más salvaje.
